

## FISCHBACH-CONTROL-UNIT FRE

The FRE is a stepless speed controller, which works in the principle of phase angle control. Build especially with a 3 wire connection for FISCHBACH motors to reduce noise and consumption to a minimum. EMV-guidelines according to EN 55014, IEC 1000-4-4.

### FRE 6/12

#### Technical data:

Voltage:	230V
Frequency:	50 / 60 Hz
Max. current:	6A or 10A
Protection class:	IP 44
Dimensions:	120 x 95 x 55mm (length x width x height)
Control:	internal potentiometer

### FRE 110

#### Technical data:

Voltage:	230V
Frequency:	50 / 60 Hz
Max current:	8 A
Protection class:	IP 00
Dimensions:	115 x 105 x 65mm (length x width x height)
Control:	0- 10VDC or 4- 20mA
Available in casing o request.
